FIRST UNITED CREDIT UNION

July, 2016

Want MORE E-Convenience?

Take advantage of our new Mobile Banking App. New online account opening, loan closings, and E-docs are coming soon!

You've seen that our Mobile Banking app is ready for you to download. It's ideal for your iPhone, Android, tablet or laptop. It's convenient, too. Instead of using your device's browser to connect, you'll go directly to our mobile site for even faster transactions.

And coming soon, you'll be able to open an account completely online at First United, swiftly and securely, 24/7. Want a checking, holiday or vacation savings account? Have a friend that wants to open an account? No problem! These website enhancements will enable you to open accounts online and change the way you do business.

You'll be able to open an account online anytime, from the convenience of your computer, tablet or smartphone.

Loan closings will also become electronic. For those of you who prefer to do business electronically, you'll be able to complete, sign, and send your loan information safely online via a secure email server.

There will be no need to come into the office to complete your loan paperwork!

At First United, we're committed to your financial success. We also want you to devote time to things most important in life, not spend time completing banking transactions.

We're here for you – to make life easier and less complicated.
