FIRST UNITED
Federal Credit Union

**No Loan Payments for 90 days
on your Auto Loan?!***

That's right! No Loan Payments for 90 days on your Auto Loans!*

With every new auto loan at First United FCU you have the option to wait 90 days to make your first payment! This option is available for new vehicle purchases or for auto loans currently financed elsewhere. Your loan will still accrue interest, but you do not have to worry about making your first payment for up to 90 days! Think of the things you could do with 3 months of car payments! Pay down other bills! Put aside money into savings!

*Only valid on new loans. Not valid on current loans at First United Federal Credit Union. Loans accrue interest during first 90 days while no payments are being made.

From the CEO

Article by Jeff Kruer, CEO of First United Federal Credit Union

As I am now the other side of 60, I'm in that age group that has not always embraced technology. In all truthfulness, I will never be on the cutting edge. I have however, slowly come to the realization that there are certain applications of technology that can in fact make my life easier. Technology has had a major impact on our operation and the way we provide products and services to our members. Did you know that we have the ability to send you an E-Mail in advance of your loan due date, to remind you when your payment is due? That you can access your account through our internet banking product "It's Me 247" using either your computer or your web enabled cell phone anytime day or night. Did you know that you can have your statements sent via E-mail, and have the information days before conventional mail will bring them to you? It not only assures you of getting your statement more quickly, it eliminates one more possibility of identity theft, should your paper statement fall into the wrong hands. You can also receive E-mail notices when ACH transactions, like your Social Security, pension, or bill payments have been debited or credited to your account. Our Bill Pay system offers options that allow you to have monthly statements from any of your creditors sent directly to your computer for your review. You can make a hard copy if you wish, or just store the information in your computer. You tell the system when you want the payment made. No more checks to write, or stamps to buy, and you'll never forget to make a payment. It also eliminates any chance that undesirables can get personal information by taking items from your mailbox. All these options and more are available to you now at no cost!

Because we understand that technology can sometimes be intimidating, we've set up a computer in the Credit Union lobby and we'd love to sit down with you and show you how these systems can make your life a little easier. They are surprisingly easy to use. After all, even an old dinosaur like me can do it. Stop in soon and embrace technology.

Overdraft Privilege

At First United FCU we pride ourselves on member service, and to prove that we have recently implemented a new service to enhance the value of your checking account. It's called Overdraft Privilege and here's how it works.

For members who are eligible, which is most of our members, we will generally pay your overdraft items up to \$500.00* instead of returning them and charging you a NSF fee as we have in the past. This may eliminate returned items and returned item charges from merchants. It can also eliminate the embarrassment that accompanies having your items returned. It's so easy. You don't have to do anything to activate the service and if you don't use it, it won't cost you anything!*

So feel more confident about your finances and the peace of mind that Overdraft Privilege may bring you. If you would also like this peace of mind on your debit card and ATM transactions, call or stop by and let us know if you want this coverage at no additional cost.*

We appreciate your business, and your new Overdraft Privilege is just another way we can say "thank you" for your membership with us!

*Whether overdrafts will be paid is discretionary and we reserve the right not to pay. For example, we typically do not pay overdrafts if an account is not in good standing, if the member is not making regular deposits, or if they have too many overdrafts. Each item presented will be assessed our \$30 overdraft fee, whether it is paid or returned. You must bring your account back to a positive balance within 30 days. Overdraft Privilege will be available for overdrafts created by checks or electronic ACH transactions.
